

Joint Review Committee on Education in Radiologic Technology

Interpretation of Standards for an Accredited Educational Program in Radiography, Radiation Therapy, Magnetic Resonance, and Medical Dosimetry.

Standard One: Accountability, Fair Practices, and Public Information

The sponsoring institution and program promote accountability and fair practices in relation to students, faculty, and the public. Policies and procedures of the sponsoring institution and program must support the rights of students and faculty, be well-defined, written, and readily available.

In support of **Standard One**, the program:

Objective

- 1.1** The sponsoring institution and program provide students, faculty, and the public with policies, procedures, and relevant information. Policies and procedures must be fair, equitably applied, and readily available.

Interpretation: Radiography, Radiation Therapy, and Magnetic Resonance

To promote transparency, programs must disclose on their website the use of distance education courses in the professional curriculum and any associated fees, if applicable.

Interpretation: Medical Dosimetry

To promote transparency, programs must disclose on their website the use of didactic and/or clinical distance education courses in the professional curriculum and any associated fees, if applicable.

Adopted by the Joint Review Committee on Education in Radiologic Technology: 10/23
